### Waiting for Your Reply: [Mathematics] Manuscript ID: mathematics-1856115 - Special Issue Change

From Vincy Chu on 2022-08-10 16:08

Dear Authors,

We are writing to confirm with you the change of special issue. Since the GE of the "Mathematical Modeling and Optimization of Process Industries" points that your article is not suitable for this special issue, we suggest that you can transfer to another special issue "Optimisation Algorithms and Their Applications".

Please follow the link below to learn about this special issue:  
[https://www.mdpi.com/journal/mathematics/special\\_issues/optimisation\\_algorithms\\_applic](https://www.mdpi.com/journal/mathematics/special_issues/optimisation_algorithms_applic)

Please let us know your decision then we can continue processing. Thank you so much.

If any questions, please feel free to contact us.

We are looking forward to hearing from you soon.

Kind regards,

80°F Cloudy 21:38 26/09/2022

revisions:

- Please check that all references are relevant to the contents of the manuscript.
- Any revisions to the manuscript should be marked up using the "Track Changes" function if you are using MS Word/LaTeX, such that any changes can be easily viewed by the editors and reviewers.
- Please provide a cover letter to explain, point by point, the details of the revisions to the manuscript and your responses to the referees' comments.
- If you found it impossible to address certain comments in the review reports, please include an explanation in your rebuttal.
- The revised version will be sent to the editors and reviewers.

If one of the referees has suggested that your manuscript should undergo extensive English revisions, please address this issue during revision. We propose that you use one of the editing services listed at <https://www.mdpi.com/authors/english> or have your manuscript checked by a native English-speaking colleague.

Do not hesitate to contact us if you have any questions regarding the revision of your manuscript. We look forward to hearing from you soon.

Kind regards,  
Ms. Vincy Chu

Dear Dr. Firmsyah,

Thank you for your submission. We have noticed that the author-response letter you uploaded to the reviewer is your revised manuscript, so we would like to confirm with you whether the uploading is wrong. If there is no problem, we will continue process it.

We are looking forward to hearing from you.

Kind regards,

Ms. Vincy Chu  
Assistant Editor

Your manuscript has been reviewed by experts in the field. Please find your manuscript with the referee reports at this link:  
<https://susy.mdpi.com/user/manuscripts/resubmit/52c3c5e0191e0dee0549a445930a0822>

(I) Please revise your manuscript according to the referees' comments and upload the revised file within 3 days.  
 (II) Please use the version of your manuscript found at the above link for your revisions.  
 (III) Please check that all references are relevant to the contents of the manuscript.  
 (IV) Any revisions made to the manuscript should be marked up using the "Track Changes" function if you are using MS Word/LaTeX, such that changes can be easily viewed by the editors and reviewers.  
 (V) Please provide a short cover letter detailing your changes for the editors' and referees' approval.

If one of the referees has suggested that your manuscript should undergo extensive English revisions, please address this issue during revision. We propose that you use one of the editing services listed at <https://www.mdpi.com/authors/english> or have your manuscript checked by a native English-speaking colleague.

Please do not hesitate to contact us if you have any questions regarding the revision of your manuscript or if you need more time. We look forward to hearing from you soon.

Permission Request Letter For Article Publication (7).pdf (~520 KB)

Dear Ms. Vincy Chu,

I am Herman Mawengkang, there have been a mistake in my e-mail address in the manuscript, this is my correct e-mail address.

I am the co-author of the paper "Modeling in Achieving Knowledge Management Performance Optimally Considering Disruption" with Mr. Sajadin Sembiring whom has passed away. I am granting full copyright permission to Mr. Firmsyah in the paper that we are submitting to MDPI with the title "A Decision Model to Plan Optimally Production-Distribution of Seafood Product with Multiple Location" due to the fact that is also my data used in the former research paper.

Thank you for your consideration, and I hope this e-mail will be able to clear everything.

Best Regards,

Herman Mawengkang

We will now edit and finalize your paper, which will then be returned to you for your approval. Within the next couple of days, an invoice concerning the article processing charge (APC) for publication in this open access journal will be sent by email from the Editorial Office in Basel, Switzerland.

If, however, extensive English edits are required to your manuscript, we will need to return the paper requesting improvements throughout.

We encourage you to set up your profile at SciProfiles.com, MDPI's researcher network platform. Articles you publish with MDPI will be linked to your SciProfiles page, where colleagues and peers will be able to see all of your publications, citations, as well as other academic contributions.

We also invite you to contribute to Encyclopedia (<https://encyclopedia.pub>), a scholarly platform providing accurate information about the latest research results. You can adapt parts of your paper to provide valuable reference information, via Encyclopedia, for others both within the field and beyond.

Kind regards,  
 Francisco Chiclana  
 Editor-in-Chief

[Mathematics] Manuscript ID: mathematics-1856115 - Option to Add ORCID to Your Manuscript

From Mathematics Editorial Office on 2022-08-31 08:34

Dear Authors,

We have recently sent you a request for final proof-reading of mathematics-1856115. You now have the option to connect your ORCID to the paper via the following link:  
<https://susy.mdpi.com/author/orcid/confirm/52c3c5e0191e0dee0549a445930a0822>

ORCID is an open, non-profit, community-based effort to provide a registry of unique researcher identifiers and a transparent method of linking research activities and outputs to these identifiers. ORCID is unique in its ability to reach across disciplines, publishers, research sectors, and national boundaries and its cooperation with other identifier systems. The link above allows you to register a new ORCID if you don't already have one.

Best regards,  
 Ms. Abby Zhang  
 Production Editor

**[Mathematics] Manuscript ID: mathematics-1856115 - Final Proofreading Before Publication**

From Abby Zhang on 2022-08-31 08:34

Dear Dr. Firmansyah,

We invite you to proofread your manuscript to ensure that this is the final version that can be published and confirm that you will require no further changes:

At MDPI, we believe in the fast dissemination of sound, valid scientific knowledge. Once accepted for publication, we aim to ensure that research is published as soon as possible.

Please upload the final proofed version of your manuscript within 24 hours, and please remember that we are able to be flexible with this timeframe should you alert us. If you need more time, please inform the Assistant Editor of the expected date that you will be able to return the proofread version.

#### Title and Abstract

**Title**  
Game Chromatic Number of Shackle Graphs

**Abstract**  
Coloring vertices on graph is one of the topics of discrete mathematics that are still developing until now. Exploration Coloring vertices develops in the form of a game known as a coloring game. Let G graph. The smallest number k such that the graph G can be colored in a coloring game is called game chromatic number. Notated as  $\chi_g(G)$ . The main objective of this research is to prove game chromatic numbers from graphs. This study examines and proves game chromatic numbers from graphs  $Shack(K_{n,v,t})$ ,  $Shack(S_{n,v,t})$ , and  $Shack(K_{(n,n),v,t})$ . The research method used in this research is qualitative. The result shows that  $\chi_g(Shack(K_{n,v,t}))=n$ , and  $\chi_g(Shack(S_{n,v,t}))=x_g(Shack(K_{(n,n),v,t}))=3$ . The game chromatic number of the shackle graph depends on the subgraph and linkage vertices. Therefore, it is necessary to make sure the vertex linkage is colored first.

#### Indexing

**Keywords**  
Game chromatrics number; Vertices coloring game; Shackle graph.

#### Title and Abstract

Title	CHARACTERISTICS OF SHACKLE GRAPH: $Shack(Kn,v(j,i),t)$ , $Shack(Sn,v(j,i),t)$ , & $Shack(K(n,n),v(r,j,i),t)$
Abstract	

#### Abstrak:

Operasi shackle adalah operasi antara dua atau lebih graf yang menghasilkan graf baru. Graf shackle dinotasikan adalah graf yang dihasilkan dari  $t$  salinan dari graf yang diberi simbol dengan  $dimana$  dan  $t$  bilangan asli. Operasi shackle ppada penelitian ini adalah shackle titik. Operasi shackle titik dinotasikan dengan artinya graf yang dibangun dari sembarang graf sebanyak salinan dan titik sebagai . Kelas graf yang akan di eksporasi karakterisinya dan bilangan kromatinya adalah ,  $S$  , &  $S$  . Hasil penelitiannya menunjukkan bahwa bilangan kromatik graf shackle sama dengan subgraf pembangunnya.

#### Kata Kunci:

Operasi Shackle, Shackle titik, graf shackle, bilangan kromatik.

#### Abstract:

A shackle operation is an operation between two or more graphs that results in a new graph. Shackle graph notated is a product graph from copy of graph is denoted by where and are natural numbers. The shackle operation in this research is vertex shackle. Vertex shackle operation is denoted by which means that the graph is constructed from any graph as many as copies and vertex as linkage vertex. The class of graphs examined in this study are ,  $S$  , &  $S$  . The results show that the chromatic number of the shackle graph is the same as the subgraph that generates it.

#### Keywords:

Shackle Operation, Vertex Shackle, Shackle Graph, Chromatic Numbers.
